Characteristics:	<p>Laid paper – crafted on the sifting drum: today as well as a long time ago, a paper of tradition. Hand-crafted or machine-made in typical natural white laid paper as it is produced since centuries. It is recognizable by its particularly soft surface (it feels like fabric). It is warm and awakens a feeling of preciousness. It is a gem under stationery and announcement papers. Hand-crafted laid paper is more expensive than other paper. The specialist knows the quality and the prestige of hand-crafted laid paper. Not just kings and other royalty use this paper. Writing on laid paper represents a quality of life, and it says a lot about the writer. One can make a difference by writing on laid paper. In connection with a beautiful handwriting, steel engraving but also with all modern printing procedures, hand-crafted laid paper is a wonderful carrier of messages.</p>
